

SAT, MAR 5TH 3-5PM

Free Osteoporosis Screening

Learn about bone health

Pharmacists and students pharmacists will be present to conduct a free complimentary bone density scan to measure your risk of bone fractures. We will then look at the results, along with your lifestyle, and any medications you may be taking to make recommendations on how to take better care of your bones. Come join us! Set-up an appointment with the front desk today to guarantee your spot.

Free Bone Density Scan

Talk One-on-One with a Pharmacist
