### • **Tentative Autumn Events**

- Internship Mentor Program

- "What to Expect" Panel, ask questions and get answers from MSIM students who can give advice about the MSIM program from the student perspective.

### • **AIMS Officer Focus: Program Representative**

- In my position as Student Representative to the MSIM Program Committee, I act as a student voice to the faculty in matters of policy and curriculum. This year we are undergoing a curriculum review, this means the classes currently being offered are examined for relevance to our program. If the classes are found wanting, they are modified or changed to suit the needs of the upcoming student body. These changes are sometimes felt within a year's time, such

as in the capstone class, but more often these changes will not be made known for two year's time. the Committee uses the student representative to get a feel for the student experience in the program. If you have any questions about this position or about the Program Committee itself, please email me at [mandyudub@yahoo.com](mailto:mandyudub@yahoo.com)!
