

The Healer's Art
Personal Oath Statement
Spring 2003

Sunil Aggarwal, E-02:

Help me find the power to bring a healing touch to people's lives.

Give me the strength to seek out and cure people of their suffering, their stresses, and roadblocks to personal fulfillment.

Show me the way to help connect people with a primordial spiritual knowledge that will connect us all together.

Give me the power to bring this through my medical education and graduate education.

Let me please not lose this along the way; rather, help me to find a way to learn it, teach it, understand it, do it, and really be it.
