Meeting with Mr. Glidden:

Today we had a great meeting with the UW facility manager, Michael Glidden.

Mr. Glidden fully supports the paper recycling program! Besides, he is one of the founding members for Student for Environmental Awareness back in college.

So here are the important messages from the meeting:

There paper recycling program can be restarted with only the approval of Mr. Glidden.

However, he might get in trouble if he doesn't have hard evidence to back up the program.

Thus we need to start a pilot program to show that paper recycling will be feasible.

This Thursday we will begin the planning!

I will like to incorporate environmental awareness education to the program to increase the result.

Mr. Glidden's email is glidden@u.washington.edu

MLK day:

SEED will work on forest restoration with RHSA on Monday, 1/17.

Please send me an email with your name and T-shirt size if you wish to come. The T-shirt will be free.

Website:

The website is up and running, and it LOOKS AMAZING! Please go check out at:
