The club chose from 5 layouts

Announcements

Pat Kaufman (sp?), head of UW recycling, will visit a SEED meeting soon. Perhaps Tuesday November 23.

Jon Michelle (sp?), assistant director of HFS and accomplished chef, will also be visiting a SEED meeting.

The Herb Garden is being redesigned.

RHSA

The leadership office will be closed Thursday.

Discussion

The idea of posters reminding residents not to waste water, electricity, etc was brought up. Tim says we will discuss this further.

The club should get out the message not only that recycling is important – but why it is important. There should be some sort of exposure of the problem so the consequences can be seen and hopefully then bring a sense of urgency.

For dorm residents, it would be a good idea to attend the Hall Council meetings and request that the paper used in the meetings be recycled instead of just thrown out.

Apparently there are cool recycling bins that are being unused on campus that are ideal for the dorm room, we will discuss this more later.

SEED has found a permanent place for meetings – Mary Gates Hall 258 the Multi-Purpose Room where we have been meeting.
