

SEED Minutes
November 30, 2004

Agenda

- RHSA (budget, recycling)
- T-shirts
- Winter Quarter Activities
- Environmental Student Mixer

- RHSA
 - SEED cannot have a budget, but can make individual proposals
For example: If we would like money for the camping trip we need to prepare an itemized list as to where the money will go and present the proposal
 - Random Facts: RHSA has a budget of \$8,001. Each hall council has its own budget amounting to \$2 per resident (?)
 - If you live in McCarty, McMahan, Lander, Terry, or Mercer please attend your hall council meeting and request a recycling program akin to Haggett's through which residents can bring paper to the hall council meeting and an RHSA volunteer will transport the paper to the recycle bins.

- T-shirts
 - Shall we make SEED t-shirts? If so, for SEED members or the whole campus?

Winter Quarter Activities

- Martin Luther King Day of Service (through the UW Gateway Center)
 - Jan. 17. last year was from 8:30-3:00 but w/ breaks and SEED left before 3:00
- Michael Glidden, the facilities manager will likely be visiting our second meeting
 - We will discuss the survey with Michael Glidden
 - Discuss prospect of each dorm room having a paper recycling bin either already there on move-in day or providing residents with the option to request a recycling bin.
- EarthCorps
 - SEED can attend EarthCorps events. EarthCorps is an organization whose aim is to help the environment. They host various events for volunteers including clearing blackberries and ivy.
- Greek Row
 - The recycling situation is horrendous – perhaps SEED could hold a talk with Greek Row leaders/inhabitants to discuss voluntary options to improve the situation.
- South Campus Clean-up
 - Let's not have a band, eh?
 - Coincides with WinterFest (?)

- Inauguration Day
 - Possibly host a tree-planting event to commemorate the administration with the worst environmental record in history
 - Have a poster of some sort indicating the purpose of the tree-planting with neutral language that only contains facts about this administration.
- Environmental Student Mixer
 - Sponsored by Earth Club
 - December 3. 4-6pm in Mary Gates Hall Rm.258 (where SEED meetings are held)
 - Snacks, coffee, beverages, music, games, and a great atmosphere for meeting like-minded students provided
 - If able, contribution of a food dish is appreciated.
