**RE:** Inject #8: Whaling Response and Training

---

We are getting a lot of pressure from the Board of Directors on how we are protecting the company from phishing attacks, specifically whaling. Because some of this is new to me, I would like you to prepare a presentation on phishing/whaling that gives a brief overview of the topic, the dangers, and the mitigation strategies that we are currently using or that we need to implement.

I will be presenting your materials to the board and will let you know how your materials were received.

This request is to be completed by 3:30 PM today.
